🕐 5 - 10 minutes   ⏱ Easy

What you need

Tools

	Metal Spudger

	iFixit Opening Tool

	Phillips #0 Screwdriver

Go to step 1 ↓

Introduction

Upon boot up, the computer may read a "CMOS checksum error," or date and time keep getting reset. If this is the error you are receiving you should replace your CMOS Battery.

Step 1   Battery

- Press the battery release tab and the battery will pop up.
